## Employment Training Panel Awards Almost \$6.5 Million to Train 5,490 California Workers

**SACRAMENTO** – Today the California Labor and Workforce Development Agency's Employment Training Panel (ETP) approved 51 contracts totaling almost \$6.5 million in job training funds, which will provide training to 5,490 California workers for quality jobs in a broad range of industries.

Because small business represents over 50 percent of the California's workforce and 98 percent of all business enterprise in the State, ETP continues its efforts to meet the training needs of California's small business community. Today, 36 of the 51 contracts approved by the Panel were small business projects, ranging from \$3,520 to \$74,880 and totaling almost \$1.5 million to train 1,485 workers.

ETP serves small businesses through direct contracts with single employers and employer consortia or training agencies that train workers for groups of employers. Because ETP has streamlined and simplified the small business contracting processes, this past year almost \$8 million in job training funds was awarded to 149 small business owners employing fewer than 100 workers.

"Small businesses play a very vital role in California's economy and it is critical that their training needs are met," said Brian McMahon, ETP's Executive Director. "ETP is committed to serving small business and developing entrepreneurs by providing flexible, responsive training options designed to meet the unique needs of this important sector."

With today's contract approvals, ETP has exhausted all of its current year program funds, which are generated through a tax on employers, resulting in the need to cancel the Panel's May 2008 meeting. However, the Panel will reconvene in June to begin approving job training projects for funding effective July 1, 2008.

For more information regarding ETP's Small Business and Entrepreneurial Programs, or information regarding the status of ETP's current or projected 2008/09 budgets, contact Shari Little, ETP's Director of Economic Development, at 916/327-5261.

ETP is a business and labor supported state agency that assists employers in strengthening their competitive edge by providing funds to partially off-set the costs of job skills training that is necessary to maintain high-performance workplaces. California's ETP is a performance-based program, providing funds for trainees who successfully complete approved training programs and are retained in well-paying jobs for a specific period of time.

The program is funded by the Employment Training Tax paid by California employers, and targets firms threatened by out-of-state and international competition. Since its inception in 1983, the ETP program has provided over \$1 billion to train more than 760,000 workers in over 65,000 California companies. Employers match training funds awarded through ETP contracts, making these projects true public-private partnerships.

To view copies of the proposals considered by the Panel at its most recent meeting, visit the ETP website at <a href="http://www.etp.ca.gov/packets.cfm">http://www.etp.ca.gov/packets.cfm</a>.
